

WERONIKA LIMBERGER

WEB & SOFTWARE DEVELOPER

ABOUT ME

I am currently a **Junior Developer** with FourteenFish. My software story starts in April 2020 when I was furloughed and decided to use this time as an opportunity to retrain and follow my passion for learning and technology. I now have 2 years experience as full stack developer, including over 1 year as **Junior Developer**. Prior to retraining I gained a wealth of experience in Finance and Legal Administration.

- Love learning

EXPERIENCE

Junior Developer at FourteenFish Ltd

Feb 2021 - present

I joined the development team in 2021 and primarily worked on improving the FourteenFish web app as well as developing clients' websites. I now chiefly work with product and feature developments.

Key job description points:

- Design, develop and maintain software solutions
- Involvement in product cycles from start to finish
- Day to day bug hunting and problem solving
- Clearly and regularly communicating with management and technical support colleagues
- Meeting individual client's requirement and standards

Languages and technical skills involved:

- HTML5, CSS3, JavaScript, jQuery
- C#, .NET, MVC, APIs, React
- UX, UI, Design, Sketch
- SQL, jQuery, Command Line
- Git, Jira, Trello, Basecamp
- iTextSharp, iText7, Gotenberg
- Postman, AWS, Mailgun

IT Career Switch Ltd - Coding Traineeship - Full Stack Developer

Apr 2020 - Oct 2020

During the traineeship I had to demonstrate a very high competency level of the following programming languages and technical skills:

- HTML5, CSS3, JavaScript
- PHP, Java, SQL, jQuery, Command Line
- Python, C#, React, APIs, Git
- Node, js, Express

I have recently passed my **Microsoft 70-480: Programming in HTML5 with JavaScript and CSS3** exam. More information on this certification can be found at: <https://docs.microsoft.com/en-us/learn/certifications/exams/70-480>

MY PORTFOLIO PROJECTS

Portfolio Project #1: "Gazetteer"

The specification was to create a map-based app to provide information on countries - with a focus on a "mobile first" development. Developed HTML, CSS and JavaScript with JQuery modules that use PHP server-based components to source data from third party APIs (Geonames, OpenWeather). [Click here](#)

Portfolio Project #2: "Company Directory"

This project demonstrates an application to maintain, display and filter a company personnel database (MySQL, PHP, CSS, Bootstrap). [Click here](#)

Portfolio Project #3: Artist's website (real world project): virginiawhiting.com

In this project I was given a free hand in set up, design and creation of the website. Responsive design and innovative style is what makes this website stand out. [Click here](#)
